PRICE TWO CENTS

BASIS OF AGREEMENT

ARRIVED AT BY THE PRESIDENT
AND THE HOUSE COMMITTEE
ON AGRICULTURE.

CHANGES MADE IN MEASURE

CHIEF EXECUTIVE NOW SATIS-
FIED WITH MEAT INSPEC-
TION AMENDMENT.

Washington, June 19.—The basis of a complete agreement on the meat inspection legislation between President Roosevelt and the house committee on agriculture has been arrived at at the White House. Speaker Cannon represented the committee in this instance and subsequently spent some time explaining the situation to the committee in its room at the capitol. The bill was practically completed when the committee adjourned.

It will authorize an annual appropriation of \$3,000,000 to pay the cost of inspection and will contain no provision for the levying of an assessment to make up any deficiency in the amount available for this work, as suggested by Mr. Cowan, representing the Texas cattle growers, and later urged by the president.

The court review provision will not be contained in the measure. This action meets the suggestion of the president. The words "in the judgment of the secretary of agriculture" will not be inserted as suggested by the president and this conclusion now meets Mr. Roosevelt's approval.

The provision waiving the civil service law for one year in the selection of inspectors will go out of the measure. It is also one of the president's recommendations.

No Date on the Label.

There is to be no date on the label of the packing of meat food products. In this the president yields to the committee. The language which gives inspectors the right to visit the pack-

ing plants at all times is amplified by the words "whether the same be in operation or not."

With these changes made, the president has indicated his entire satisfaction with the measure, which was reported from the committee as a substitute for the Beveridge amendment and was recommended to the committee that the changes might be made.

Ordinarily Speaker Cannon does not take such active part in legislation as he has in the present instance. It has been explained, however, that he regards the passage of an adequate meat inspection bill with all possible speed as vitally essential to the welfare of many important industries throughout the country.

The objection which was urged to the president as a reason why he should not insist on giving authority to the secretary of agriculture to levy tax to make up any deficiency was the constitutional provision that congress shall levy all taxes. A head tax on animals, it was pointed out, would be an exceedingly unequal one, as the value of a fine beef steer would be much greater than a steer of inferior weight and condition, yet the tax would have to be the same. The same condition would prevail as to all other animals killed for food.

It is probable the agricultural bill will be sent to conference without delay.

ONLY ELEVEN NEGATIVE VOTES.

Senate Passes the Lake Erie and Ohio River Canal Bill.

Washington, June 19.—After another day devoted largely to the Lake Erie and Ohio river canal bill, the senate passed that measure with only eleven votes in the negative. In addition, several bills to which there was no objection received favorable action.

There also was further discussion between Senators Tillman and Hopkins over the resolution of the former for an investigation of the question of national bank contributions to political campaigns, which involved renewed reference to the failure of the Chicago National bank.

The session adjourned upon the official announcement of the death of Mr. Lester of Georgia.

Will Meet in St. Paul.

South Bend, Ind., June 19.—State Senator M. Talcott has announced that the National Divorce congress committee, having in charge the drafting of a statute embodying resolutions adopted by the National Divorce congress on a uniform divorce law last February, will meet in St. Paul on Saturday, Sept. 1 to formulate a uniform divorce statute.

INTER-RACIAL WARFARE.

Tartars and Armenians Clash at Irdari, Russia.

Tiflis, June 19.—Official details have been received here of the inter-racial warfare at Irdari, province of Erivan, which was started by the capture by Tartars of four Armenians of whom two were subsequently killed and the others wounded. The Armenians retaliated, killing six Tartars, and hostilities immediately broke out throughout the region. Tartars on June 16 surrounded the Armenian village of Alkmarlue and applied the torch, but Cossacks dispersed them, killing eight and capturing forty of the marauders. Bands of Kurds are reported to be crossing the Turkish frontier to participate in the warfare.

A struggle of the same nature has broken out at Shusha (180 miles south-east of Tiflis), where Tartars on July 17 occupied a position commanding the road to the Armenian cemetery and killed one and seized ten Armenians. Another band of Tartars near the village of Lasporsk killed one and captured fourteen Armenians. The fate of the prisoners is unknown.

Word has been received that several armed Tartars have surrounded the village of Galadarali. A battery of artillery has been dispatched to the relief of the village.

IOWA GOVERNORSHIP FIGHT.

Both Cummins and Perkins Assert Control of State Convention.

Des Moines, June 19.—The managers of Governor Cummins' campaign claim 758 instructed and uncontested delegates, including Scott and Delaware counties, where contesting delegates were selected but will not come to the convention. In addition they claim Wappello, Jasper and Jefferson, a total of 60 delegates, which are contested by Perkins, and have lodged a contest against the 23 delegates for Perkins from Des Moines county and a protest against the Perkins delegates from Chickasaw of 11 delegates, giving Cummins a total, including contested delegates, of 852 delegates. Governor Cummins' managers give Perkins 531 delegates, of which 92 are uninstructed, and they give Rathbun 90 delegates instructed.

The Sioux City Journal, Mr. Perkins' paper, claims for Mr. Perkins 723 delegates and gives to Mr. Rathbun 90, claiming that the total of these, or 813, are anti-Cummins delegates. It gives Governor Cummins 711 delegates.

FREDDIE MUTH FOUND

PHILADELPHIA OFFICERS LOCATED YOUNG BOY WHO WAS KIDNAPPED.

ABDUCTOR IS UNDER ARREST

THE MAN WHO STOLE THE CHILD IS CAPTURED AT THE POINT OF A PISTOL.

Philadelphia, June 19.—Freddie Muth, the seven-year-old son of Jeweler Charles Muth, who was kidnapped from the Muhlenburg public school last Tuesday, was found Monday in a vacant house and returned to his parents. John Joseph Kean, a member of a respectable New York family, one time bookkeeper of the Harlem bank, a stock broker and more recently a real estate agent, is the abductor.

Replete with dramatic incidents throughout, the climax of the abduction was sensational. The kidnapper was taken at the muzzle of a pistol after he had been fired upon and when he realized that escape was impossible. Kean is a married man and the father of three children. He gave as his reason for abducting the Muth boy that he needed money.

From the day of the kidnapping until the arrest Kean had kept the child in three vacant houses in West Philadelphia.

The first information that Kean and his captive were in the vicinity in which the arrest was eventually made came from Joseph Sager, a baker, who told a policeman he had seen a man and boy answering the description of the pair in an oyster saloon on Haverford avenue last Wednesday night. Special officers began a search of all the vacant houses in the neighborhood and their search led them to the very house occupied by the abductor and the child.

Able to Elude the Police.

These dwellings were so constructed, however, that by means of a rear shed Kean was able to elude the police by climbing into the back windows of two adjoining houses which were also unoccupied. A second investigation resulted in the recovery of the boy and the arrest of the kidnapper.

J. Cooke, a real estate dealer, complained at headquarters that John Joseph Kean, who had acted as collector and agent for him, had embezzled \$400. Specimens of his handwriting were shown the police and they were found to be identical with the letters the abductor had begun sending to Mr. Muth.

Special Officers Clare and Vale again instituted a search of the vacant houses in their district and they paid another visit to the dwellings at 423, 425 and 427 North Sixty-second street. When Chief Vale reached the third floor of No. 425 he observed Freddie Muth standing on the rear shed of No. 427. He called to him, saying: "Hello, Freddie."

Freddie said "hello," and immediately began to cry. Vale leaped through the window and stepped across the roof to the adjoining house. He was just in time to see Kean hurrying down the stairs. Drawing his revolver, he fired at the fleeing man, but missed. He finally caught him and the kidnapper surrendered. The child in the meantime had followed the pair and reached the first floor as the arrest was made.

The news of the capture had reached the center of the city and when the prisoner and the boy arrived at the city hall a great crowd had gathered. Kean, white with fear, trembled so that he could scarcely walk and begged the detectives not to let them kill him.

Father and Son Meet.

With the boy he was taken to Mayor Weaver's office and the mayor immediately communicated by telephone with Mr. Muth, who hastened to the mayor's office and the meeting between father and child was most affecting.

The child bore no evidence of ill treatment beyond lack of sufficient nourishment. He had been fed on bread and milk, which Kean had stolen from doorsteps. When found he held a couple of crusts of bread in his hands and his school book under his arm.

In the letters which the kidnapper wrote to Mr. Muth he threatened to kill the boy if his demands were not met. He demanded that Mr. Muth tell the police a fictitious tale about the disappearance of his son in order that the detectives might be withdrawn.

His letters were answered by Captain Donaghy through the "personal" columns of the newspapers and apparently all his demands were granted

but Kean avoided arrest.

Kean told the police in his statement that he abducted the boy primarily to secure the \$400 he had embezzled from Charles J. Cooke. In addition, he said he was in debt, with no means of providing for his family. He said he never intended to harm the boy.

Previous to kidnapping the Muth child he had attempted unsuccessfully to abduct Louis Kolasky, a six-year-old boy, whose parents he believed were well-to-do.

TALES OF BARBARITY

HORRIBLE STORIES TOLD BY CORRESPONDENTS IN THE CITY OF BIALYSTOK.

St. Petersburg, June 19.—The embargo on news from Bialystok has been lifted and the Associated Press staff correspondent for the first time has been allowed to telegraph direct from the sacked city a picture of the scene of ruin and desolation left in the wake of the mob. According to frequent bulletins order was restored and maintained throughout the day in spite of the incentive to disorder at funerals, which were in progress almost the whole day; but the atmosphere is supercharged and a slight event may precipitate a renewal of street fighting. The authorities apparently realize this and hope to avert such a catastrophe by a strong show of force. On one occasion the whole garrison was called out on some alarm and the streets were literally packed with horse, foot and artillery until the danger was passed.

The story told by the Associated Press correspondent is a dreadful one, but there are indications that he has been prevented by the censorship from relating further details about the condition of corpses, the utter bestiality of the mob and the inability of the troops to cope with the excesses during the first days of the rioting.

It is evident from the dispatches that the excesses assumed the character of a three-cornered fight between the military, the mob and armed members of the Jewish bund, who, instead of submitting passively to slaughter as their unarmed coreligionists have done heretofore, carried the war into the enemy's camp and fought bravely, though without inflicting appreciable loss on the troops, among whom no serious casualties have been reported.

Unnerved by the Sights.

Horrible details have been sent out by the correspondent of the Bourse Gazette, who arrived in Bialystok in company with Deputy St. Shepkin on Saturday. The correspondent, who accompanied St. Chepkin directly to the hospital, escorted by a corporal's guard, says he was utterly unnerved by the sights he witnessed there.

"Merely saying that the corpses were mutilated," the correspondent writes, "fails to describe the awful facts. The faces of the dead have lost all human semblance, and the corpses are crushed masses of flesh and bone soaking in blood. It is impossible to conceive of such bestiality. The corpse of Teacher Apstein lay on the grass with the hands tied. In the face and eyes had been hammered three-inch nails. Rioters entered his home and after fearful outrages killed him thus and then murdered the rest of his family of seven. When the corpse arrived at the hospital it was also marked with bayonet thrusts."

The correspondent, who adopts the bitterest tone towards the government, holds that the pogrom undoubtedly was provoked and attributes the responsibility to Police Lieutenant Sheremetieff, and says the distinctive characteristic of the outbreak in which it differs from the excesses at Odessa, Kishineff, Gomel and Kieff, aside from bestiality, is the comparatively small amount of actual robbery committed.

The participants seemingly were not inspired by motives of loot, but of murder and destruction pure and simple. He also holds that the participation of the troops and their officers has been clearly proven.

Two Little Girls Perish.

Mooselaw, Sask., June 19.—Two little daughters of E. Hoffman, Wood Mountain, went to bring home some horses. The country is broken and rough and they lost their way and have never been heard of since. Searching parties thus far have been unable to find any trace of them or their bodies.

Peace Palace Plans Rejected.

London, June 18.—The Daily Telegraph's correspondent at The Hague says he understands that the directors of the Carnegie fund have rejected that none of the plans submitted for the palace of peace is suitable and that a new competition will be instituted among the competitors.

ENORMOUS LOAN PLACED.

Fifty Million Dollars of French Money Coming to America.

New York, June 19.—Kuhn, Loeb & Co., bankers, have announced that they have purchased from the Pennsylvania Railway company 250,000,000 francs Pennsylvania company 12-15 year 3 1/2 French franc loan of 1906, guaranteed as to principal and interest by the Pennsylvania railway company.

The entire loan has been placed by Kuhn, Loeb & Co., with a French group under the management of the Banque de Paris et des Payses Bancaires and the Credit Lyonnais. The issue price will be in the neighborhood of par. Payment will be made in about equal installments divided over the balance of the present year or earlier, at the option of the French banks. A member of the firm of Kuhn, Loeb & Co., in speaking about the matter said:

"We consider that the closing up of this transaction is a most important event, financially. It marks the placing of the first direct American loan in Paris and it is further the first officially sanctioned American loan placed there."

"It means that about \$50,000,000 in French currency will come to this country. This French money will arrive here at a most opportune time. The issue price will be between 99 and par. All the costs and expenses incidental to the placing of this loan will be borne by French banks interested and the Pennsylvania company will have to pay no part of the expenses."

"Many legal technicalities had to be overcome in order to conform with the French laws before the affair was entirely closed up."

REFUSED TO BE 'ROBBED.

Pennsylvania Man Kills One Highwayman and Wounds Another.

Indiana, Pa., June 19.—Guiseppe Castino, an employe of Hellwood Inn, was held up by three highwaymen near here at night. Instead of complying with the request for money Guiseppe drew a revolver and began firing. One of his assailants was shot dead, another was badly wounded and the third fled. The injured man was captured, but he refuses to disclose the names of himself or companions.

Lowlands Inundated.

Council Bluffs, Ia., June 19.—The lowlands along the Missouri side of the Missouri river, north and south of this point, are inundated by the overflow of that stream in places. A considerable acreage of growing crops has been submerged.

Kaiser Will Not Meet Czar.

Cologne, June 19.—The Gazette prints an inspired Berlin dispatch denying that Emperor William will meet the emperor of Russia this year after the conclusion of the former's Norway trip.

It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system run-down. To restore this vitality take Dr. Miles' Nerve which will strengthen and build up the nerves. You cannot be healthy without strong nerves.

"For eighteen years Dr. Miles' Nerve and Anti-Pain Pills have been my close companions. Early in married life, while raising children, my nerves became all worn-out—could not sleep, had no appetite, indigestion very bad, and had such awful dizzy spells. Then I began using Dr. Miles' Nerve, and at once I began to improve, and soon found myself in perfect health."

WITH GREATER FURY

DISORDERS AGAIN BREAK OUT
IN THE RUSSIAN CITY OF
BIALYSTOK.

BOMB-THROWERS ARE BUSY

CONSTANT EXCHANGE OF SHOTS
BETWEEN THE JEWS AND
THE SOLDIERS.

St. Petersburg, June 17.—Disorders appear to have again broken out at Bialystok with even greater fury than characterized Thursday's riots.

No dispatches have been received direct from Bialystok, where the telegraph office is closed; but semi-official messages from Grodno and Minsk report that the excesses were started again by the throwing of several bombs. The crowds, according to these dispatches, then opened fire on the police station, to which the troops replied, and there was a constant interchange of shots between Jews in their houses and soldiers in the streets. A mob of peasants, armed with clubs, scythes, etc., who had found their way into the city Thursday, was participating in the rioting. A dispatch from Minsk states that the authorities had been fully forewarned of the possibility of trouble Thursday and had recalled a battalion of infantry and several squadrons of cavalry from their summer camp to strengthen the garrison, but without overaweing the fomenters of trouble.

FIGHTING AT BIALYSTOK.

Jews and Troops Continue Battle at That Place.

Grodno, June 17.—According to reports received here from Bialystok fuelling has continued throughout the city all day. Jews firing from the windows of their houses, the soldiers answering with volleys, crowds of peasants with clubs and scythes pillaging and beating Jews, and cavalry patrols hunting down pillagers. The city has been cordoned in order to prevent the ingress of more peasants. Many persons are reported to have been wounded but the number of dead is said to be comparatively small. Exact details of the day's disturbances are lacking, but Thursday's phazing is attributed largely to peasants from the country.

TO INVESTIGATE OUTBREAK.

Committee From Russian Parliament Going to Bialystok.

St. Petersburg, June 17.—The lower house of parliament has given the government a lesson on promptness of investigation of the Bialystok outbreak, a committee of three having been named and departed for Bialystok in the hope that the presence of representatives of parliament will check the disorders and have a salutary effect on reactionary officials. If the charges are true that they are inspiring excesses.

The membership of the commission is significant, including Deputies Jacobson, a Jew; Arakantseff, former procurator of Minsk, who was dismissed from office and banished because he recommended the trial of Governor Kurloff for inciting the anti-Jewish excesses at Minsk in November of last year; and Stehophkin of Odessa, who investigated the October riots in that city and demanded the prosecution of Neldhardt, the prefect of police of Odessa, as the provoker of the riots.

The first evidence to be submitted to the commission will be copies of proclamations, which, it is asserted, were distributed in the streets of Bialystok the past ten days under the eyes of the police, calling on the population to rise against the Jews and intellectuals.

Preparing for an Uprising.

London, June 17.—The Times' St. Petersburg correspondent says it is rumored the government is negotiating with Germany and Austria-Hungary for united action in case there is an uprising in her western provinces.

DESIRES A LOCK CANAL.

President Roosevelt Would Veto Bill for Sea Level Ditch.

Washington, June 17.—If congress should send a measure to President Roosevelt providing for the construction of a sea level canal on the Isthmus of Panama he would veto it. This statement is made by authority.

Minnesota Man Drowned.

Windom, Minn., June 17.—A. P. Epp of Mountain Lake, aged twenty, has been drowned in the Des Moines river here. He and other boys went to the river to take a bath immediately after having dinner and it is reported that he was seized by cramps immediately after getting into the water and disappeared.

Officers and Robbers Fight.

Richmond, Mo., July 1.—In a fight near Lawson, Mo., between two officers and three men who, it is supposed, robbed the postoffice at Mooreville, Mo., last Wednesday night, both officers and one of the robbers were badly wounded. One of the robbers is believed to be seriously wounded.

Wahpeton Excursion Trains Pull Out of
Brainerd on Time in Two Large
Sections.

Two long sections, all fully loaded, were needed to carry the Wahpeton excursion to Duluth, which passed through Brainerd this forenoon. For a rarity in excursion trains, both sections were on the dot and left on time, the first at 10:20 and the second section at 10:35 this forenoon. Among those who went from here were A. E. Moberg, Miss Saunders, J. F. and Mrs. Townsend, Grover Koop and Chas. Howe. About thirty tickets were sold all told.

STEADY ACTIVITY ON THE CUYUNA

W. C. White, of Deerwood, Talks
Interestingly of the Pros-
pects of the Range.

MERELY A MATTER OF TIME

When Shipments will Begin, the
Only Question — Railroads
will Come When Needed

A representative of THE DISPATCH called at the pleasant summer home of W. C. White at Deerwood the other evening. He found that gentleman and his estimable wife out looking over their fine garden. Though Mr. White stated that it was much more backward than usual, yet it was far ahead of anything the reporter had seen around Brainerd and showed the careful attention of an enthusiast.

When approached on the subject of the Cuyuna range Mr. White smiled and led the way to the broad and pleasant screened veranda overlooking Lake Reno. When comfortably seated he remarked that he had nothing to say except in a general way. That the work of developing the finds was going on steadily and satisfactorily. The amount and quantity of ore was no longer a matter of question. It was simply a matter of how soon shipments would commence.

The United States Steel Corporation is still engaged in developing their leases on the Cuyuna and from other sources it is learned that they are now paying out a good sized fortune annually to holders of fees on the Cuyuna. While the sum may be a mere pinch of snuff to a gigantic concern like that, it is still almost incredible that they will pay amounts running close to six figures a year for the purpose of holding the ore out of the market, when the royalty would be no more if they were getting out a few hundred thousand tons of the ore annually.

The company has had bad luck on the shaft on 30-47-28. The lake broke into the shaft with a stream the size of a man's body and it had to be abandoned. They then began drilling farther back from the lake and will determine the formation in that direction before putting down another shaft. They expect, however, to get to work on the new shaft sometime in July. The shaft on 30-46-28 has not been commenced yet. It is said on good authority that the machinery used in the north shaft would be used for developing both. As they are paying royalty on both leases the holders of the fee are not worrying about the delay on the shafts.

The Northern Pacific is just completing the twelfth hole on a single eighty in 21-46-28 and it is stated that they will close on their option at once. There are thirty holes reported to have been sunk on that section. Of course there is no way of getting evidence of the finds except in a general way.

During the conversation Mr. Adams remarked that from what he could learn the stumbling block at present was freight rates and that it was the intention of the big operators to get as many mines as possible ready to accumulate stock piles before they moved on the railroad company in the matter of rates. In other words to get enough so that if the Northern Pacific did not want to make rates it would pay to build a road from the head of the lakes to the mines.

In discussing the effects of the range on Brainerd Mr. Adams said one of the best finds on the range was within three miles of Brainerd. They were not far enough along to make any definite statements as to the drilling south of Brainerd, but he was satisfied with

the results so far, and believed that Brainerd would have a good permanent growth from the result of the iron mines.

There are over forty drills at work on the range, and while a drill stops work on a piece of land here and there it immediately begins work somewhere on the range. While there is not as much excitement as a year ago it has settled down to the steady, continued work that means business and shows results.

DEERWOOD ITEMS.

Deerwood is experiencing quite a boom this season. The summer cottages are rapidly filling up and there is a good demand for board and rooms.

Landlord Frisbee has had the large porch on the east side of the hotel screened in for the benefit of the guests. He has also put in a soda fountain and a stock of soft drinks.

The new store building and Samaritan hall being erected by Carlson and Oberg is rapidly approaching completion and it is expected that the hall will be ready for use Friday evening of this week. Mr. Carlson will put in a confectionery store and pool room on the ground floor, which is now ready for the plasterers.

F. A. Tanzer, of Pequot, who has been here for some weeks working in behalf of the Modern Samaritans, will complete his work Friday evening when he will organize Cuyuna Council, Modern Samaritans. After the organization of the lodge and the installation of the officers a dance will be given and a mid-night supper served. The new lodge has secured the second floor of the new Carlson & Oberg building.

Mrs. T. F. Neilson, of Seattle, accompanied by three children are visiting at the home of Olson Skau. Mrs. Neilson is a sister of Mrs. Skau and they have not met for eighteen years. They parted at St. Paul at that time, immediately after their arrival in America. Mrs. Neilson, then unmarried, proceeded to Seattle to join her affianced husband and Mr. and Mrs. Skau in Minnesota. Mrs. Neilson and children will remain here about three months.

CONTAINS HONEYED WORDS.

But Address of Nobles Does Not Yield
an iota to Peasants.

St. Petersburg, June 19.—The insignificant position of the Russian nobility is made manifest in the address to the throne adopted by the nobles' congress recently in session here and now published for the first time. While it contains honeyed words of solicitude for the peasant "brothers" it does not yield an iota on the question of the expropriation of the land. It characterizes the present as the most dangerous moment for Russia in 1,000 years of her history, not on account of her foreign foes, but owing to her internal enemies, "who are seeking to seize the supreme power by blinding the people with false promises and deluding the peasants with dreams of free lands."

The address assures the emperor that the nobility are persuaded that the real Russian people have implicit confidence in the "supreme autocratic power as essential to the regeneration and development of the country." Expropriation, it declares, would declare the inviolability of property, which is the foundation of the state and is in the interest of a purely socialistic regime.

The address insists that the only relief possible is by colonizing the lands and through the agrarian banks, education of the peasantry and better agricultural methods.

FAMOUS RACEHORSE DEAD.

James R. Keene's Sysonby Dies of
Blood Poisoning.

New York, June 18.—James R. Keene's famous four-year-old colt Sysonby, conceded last year to be the best horse in training in America, died in his stall at the Sheepshead Bay racetrack of blood poisoning. The horse had been ill for a long time with a skin disease. His ailment had necessitated his withdrawal from all of this year's big stakes, including the Brooklyn, Suburban and Brighton handicaps, in all of which he was the future book favorite.

Sysonby's death was sudden and occurred, strangely enough, while Mr. Keene was making his daily visit to his Sheepshead Bay stable. The horse dropped dead while Mr. Keene stood beside him.

As a two-year-old Mr. Keene was offered and refused \$100,000 for his colt, whose only defeat in his racing career was in the Futurity of 1904.

BETTER SYSTEM OF BOOK KEEPING

Mayor O'Brien Recommends One
For the City and Committee
Authorized to Investigate

DRIVERS ARE GIVEN VACATION

Matter of Power for the Mahlum
Lumber Company is Adjust-
ed at \$70 Per Month

Probably the most far reaching action of the city fathers at their regular meeting Monday evening was the adoption of instructions to the finance committee directing them to investigate the matter of improved systems of bookkeeping for the city and authorizing them to employ expert help if necessary in determining upon a system to recommend. This action was taken upon the recommendation of Mayor O'Brien.

Aldermen Farrar, Halladay, Gardner, Armstrong, Opsahl, Twohey and Peterson and President Johnson were present to roll call when the meeting was called to order.

The financial report of the city clerk was read and approved. It showed the floating indebtedness of the city June first to have been \$30,097.37, and May first \$28,195.45, an increase during the month of May of \$1,902.42.

The superintendent of electric light recommended that the matter of the rental of electric power to the Mahlum Lumber company be fixed at \$70 per month, the same being acceptable to that company. The recommendation was accepted and the contract ordered drawn on that basis.

The finance committee asked further time in the matter of the bill for the rent of the haymarket, which was granted.

The salary of Peter Christenson, electric light trimmer, was fixed at \$50 per month.

The city clerk was instructed to advertise for bids for lateral sewers "J" and "K."

An agent of the Austin-Western company, was present and made a proposition to ship a street sweeper to the city on approval. The price of the machine was to be \$300, and the matter was referred to the street committee with instructions to report at next meeting.

There was some talk of ordering a street sweeper off hand, but Alderman Halladay remarked that the council got roasted once for buying scales without investigating and he thought they had not better repeat the experience. Thereupon the matter was disposed of as above.

The drivers of the fire team were on motion granted a vacation of fifteen days each year with pay.

The matter of repairing Oak street was referred to the street committee, with power to act.

The council then adjourned.

A prominent doctor says: "I would advise everybody to take a dose of Dr. Adler's Treatment now and then. This will keep their system in a healthy condition and will prevent appendicitis or any bowel or stomach disease." Johnson's Pharmacy.

In almost all communities of the United States there are a number of people who are not only disregarding the reasonings given by their physical beings but are flying in the stern face of common sense by heaping a tirade of abuse on all amusement concerns and thereby causing themselves to become chronic pessimists or grumblers. If there is anything wrong about a first-class circus we fail to see it. The circus is the most harmless amusement Americans have. The circus is now and has always been the most popular amusement with all classes of people. It matters not how often we have seen it, whenever it comes around we are ready to see it again. A visit from a wholesome show like Gollmar Bros. is a benefit to any community and reasonable people believe this. Pessimists may change their views when Gollmar Bros.' Enormous Railroad Shows, all-featured triple circus, double menagerie and Roman hippodrome arrive here on Saturday, June 23.

It will pay you to read Hoffman's advertisement on Bed Steads in today's issue.

DANGEROUS FAKES

Tricks to Introduce Alum Baking Pow-
ders which should be exposed.

There has recently been attempted at some of our grocery stores, and all also at dwelling houses, by agents who are trying to sell alum baking powders, what the exhibitors call a baking powder test. They pretend to show by some boiling test that pure cream of tartar baking powders contain something which every woman of intelligence knows they do not.

It does not need a chemist to expose this trick. Cream of tartar, which is the chief constituent of the best and most wholesome baking powder, is originally a clear, white crystal. This is ground into a fine, creamy flour, in which form, mixed with baking soda, it is present in the baking powder. Cream of tartar, when mixed with water and boiled, simply returns to its crystalline form, and that is all there is to the so-called test.

The matter of special interest to the public is to know what these people offer in place of cream of tartar powders of well-known purity and established reputation against which these slanders are directed. They are offering a baking powder which official analyses have

repeatedly shown is made from alum, a drug so well recognized by physicians and scientists as injurious to health that in many countries its use in bread is entirely prohibited! So cheap and inferior are the ingredients of this powder that it costs to make less than three cents a pound. No prudent housewife will knowingly put such stuff as this into her food.

FIVE LUMBERMEN DROWNED.

Their Boat Capsized When They Tried to Cross the Shoshone River.

Cody, Wyo., June 18.—Five lumbermen were drowned in the Shoshone river near Wapiti while attempting to cross in a boat. The men belonged to a gang working on a log jam and had been warned by the foreman not to attempt the trip.

The boat contained eleven men and capsized in midstream. Six were rescued with difficulty.

DEATH OF PATTISON

GOVERNOR OF OHIO EXPIRES OF CHRONIC INTESTINAL NEPHRITIS AT MILFORD.

END COMES UNEXPECTEDLY

DEMISE OF THE NOTED SOLDIER, LAWYER AND POLITICIAN IS VERY SUDDEN.

Cincinnati, June 19.—John M. Pattison, governor of Ohio, is dead of chronic intestinal nephritis at his home in Milford, fifteen miles east of this city.

On a beautiful hillside near his home his body will be laid to rest on Thursday afternoon at 2 o'clock after services in the Methodist church. His death came suddenly and was unexpected even by his physicians and family and was caused by a relapse. The declining stage of Governor Pattison's final illness dates from last Friday, when his wish to be taken out on the front porch of his home was granted. He looked over the familiar scenes he loved so well and was in great spirits, when suddenly he complained of severe pain. The sick cot was hurriedly wheeled into the house and the attendants applied stimulants and Dr. Belt was hastily summoned. This attack was really the beginning of the end, though the governor soon rallied and Friday evening seemed as well as he had been before. Sunday night at 8 o'clock the governor became restless and suffered considerable acute pain, but later in the night he sank into a quiet sleep. At 10 o'clock Monday Dr. Belt made his usual morning visit and found his patient in a comatose state. All was done that medical skill could do, but the governor never rallied and death came peacefully.

Wife and Daughters Present.

At the governor's bedside when he died were Mrs. Pattison and his two daughters, Misses Althea and Ernestine, and the nurses.

John M. Pattison, boy soldier, lawyer, state legislator, member of congress and governor of Ohio, was a native of Clairmont county, Ohio. Born June 13, 1847, he enlisted as a volunteer in the United States army when but sixteen years of age, in 1864, and entered college immediately after being mustered out, graduating at the Ohio Wesleyan university,

Delaware, O., with the class of 1869, having been a college mate of United States Senator Joseph B. Foraker. He was admitted to the bar in 1872 and elected to the lower house of the Ohio legislature in 1873. He became a member of the Ohio senate in 1890 and was elected to the Fifty-second congress.

For the past fifteen years he has been president of the Union Central Life Insurance company.

Andrew Lintner Harris, lieutenant governor, under the constitution becomes governor during the balance of the term for which Pattison was elected.

Harris Sworn In.

Eaton, O., June 19.—The oath of office was administered to Acting Governor Andrew L. Harris here by Judge Fisher of the common pleas bench.

AERONAUTS LAND IN SAFETY.

Make a Journey of Three Hundred and Fifty Miles.

Binghamton, N. Y., June 19.—The balloon containing Julius P. Thomas and Charles Levee, which left New York Sunday evening, landed near New South Berlin at 8:15 a. m.

Dr. Thomas said that the trip was a success in every way and it would have been possible for them to have gone much farther.

During the night a severe rain and electrical storm added much to the discomfort of the aeronauts and for a time it was necessary for them to anchor the balloon to a tree, later resuming the journey.

The distance covered by the balloon is practically 350 miles and at times an altitude of 8,000 feet was attained.

AFTER SAVING FOUR LIVES.

St. Louis Man Killed in a Trench by Sewer Gas.

St. Louis, June 19.—After rescuing four of his fellow workmen, Charles Gasloli met his death by waiting in a trench filled with sewer gas until the last man had been raised to the surface. Gasloli inhaled so much gas that he barely retained consciousness until he had been pulled from the trench and he died in an ambulance while on his way to a hospital.

Negro Kills an Officer.

Denver, June 19.—Police Officer Spellman was shot and killed by a negro whom he had placed under arrest about 12:30 o'clock a. m. The shooting occurred on Arapahoe street between Eighteenth and Nineteenth, a district inhabited largely by negroes.

Brothers Drown While Bathing.

Winnipeg, June 19.—Two brothers, both young men, Jusept and William Carpenter, were drowned while bathing in Antler creek at Cantal, Sask.

Race War in Pennsylvania.

Johnstown, Pa., June 19.—As a result of racial prejudice of long standing between the white and colored population at the Miller mine shaft at Portage a fight resulted in which one negro was beaten so that he died. Five white men are locked up charged with the assault.

Jealousy Causes Tragedy.

Salida, Colo., June 19.—Mrs. Sallie Bode, wife of a railway engineer, was shot and killed here by Mrs. Harold Hutchinson, wife of a switchman. Jealousy was the cause of the shooting.
